We have received from many quarters, letters relative to the New Bencro Leprosy. Before annotating upon those in the Map, as we now mean to do, it is well to restate the cases pending between that institution and its antagonist, the New Bencro Leprosy Association. The terms, antagonist, is used advisedly; for between the two, there is a moral opposition, a moral contest, a moral enmity.

The principle on which the original institution is conducted, is inhuman & wrong. It entirely excludes from its advantages those who most need them. It
being not more than the actual value of said Property, as appears by the proposal of the said assured, lodged with the Secretary of this Company. Provided always, that this insurance is not intended to apply to, or cover any books of account, bills of exchange, notes, deeds, or evidences, or securities of property of any kind, books, musical instruments, wearing apparel, plate, money, jewels, medals, paintings, statuary, or other curiosities, unless specified in this Policy. It is also provided always, that there shall be no Smoking in or about any Carpenters', Cabinet makers', Piano-Forte makers', Wheelwrights', Turners', Carvers' or Cooper's Shops, or Stables, containing property herein insured, and it is also provided always, that there shall be no Alcohol or Spirit Gas used for inflammable purposes in any Building or Buildings containing Property herein insured, which are occupied for the purposes before mentioned.

Now, be it known, That the absolute and conditional funds of said Company are hereby bound and subjected to satisfy and make good unto the said assured, Heirs, Executors, and Administrators, all the damage by Fire which may happen to said Property, within the term aforesaid, according to the true intent and meaning of said By-Laws. Provided, nevertheless, that if the whole of the absolute, and conditional funds of said Company, should be insufficient to pay and satisfy all damages that may happen, in such case, a just average shall be made to the sufferers, and the payment to be demanded, in virtue of this Policy, shall be a dividend of said stock, in proportion to the sum insured, and the rate of damage.

IN WITNESS WHEREOF, the Mechanics' Mutual Fire Insurance Company hath caused this Policy to be subscribed by their President, and countersigned by their Secretary, and sealed with their common seal, this first day of and forty

in the year one thousand eight hundred and forty

President.

Secretary.
As the colonists themselves, those whom the undeserved contempt of ill usage of society have degraded, those whom such prejudice has condemned to ignorance, it increases their deprivations; by adding its own weight to their burden of prosecution. Unless they will acknowledge themselves deserving of that contemptuous esteem, and give their sanction to that prostration by sitting apart from the rest of the assembly in seats selected for them by the curators of the Lycenian; that institution, containing therein, so far as its genius goes, to perpetual ignorance.

This course of the Lycenian created, as it ought to have done, the indignant condemnation of the New-England Abolitionists.
No.

Conviction as a sufficient satisfaction to virtue and all the conscience of a duty or wrong.

It is the mark of abstinence to arouse and enlighten these consciousness which have been deadened and weakened by wrong doing, till they are unable to discern good from evil, or feel these differences between security and danger, and find and draw the salutary line of conduct that is in harmony with virtue from that which accords with slavery.
